SUMMARY

Software engineer with a passion for building practical, performant applications. Experienced in full-stack development, cloud architecture, and entrepreneurship. Equally comfortable designing APIs, crafting frontends, and tinkering with hardware projects.

EXPERIENCE

Software Engineer

2020 – Present

Self-Employed / Freelance

- Built and operate Reg X Timing, an integrated registration, timing, and results platform for small to mid-sized races
- Developed Metals Market Display, a live precious metals price display system using Cloudflare Workers and R2 storage
- Created and published NuGet packages including Cosmos DB Query Converter and Dependency Registration Attributes
- Built custom websites for local businesses including Heartland Tanks and Best Choice Pawn
- Designed and 3D-printed a custom 8-inch Dobsonian reflector telescope from scratch

Software Engineer

2018 – 2020

Previous Role

- Developed and maintained full-stack web applications using .NET and modern JavaScript frameworks
- Implemented RESTful APIs and integrated with cloud services including Azure Cosmos DB
- Collaborated with cross-functional teams to deliver features on schedule

SKILLS

Languages	C#, JavaScript/TypeScript, Python, HTML/CSS, SQL
Frameworks	ASP.NET, Svelte/SvelteKit, Node.js
Cloud & Infra	Azure, Cloudflare Workers/R2/Pages, Docker
Databases	Azure Cosmos DB, SQL Server, SQLite
Tools	Git, GitHub Actions, Vite, NuGet, npm
Other	3D Printing, Electronics, Hardware Prototyping

PROJECTS

Reg X Timing — Full-stack race management platform with registration, chip timing, and live results

Cosmos DB Query Converter — NuGet package for writing native Cosmos DB SQL queries with automatic parameterization

Dependency Registration Attributes — NuGet package simplifying DI registration via C# attributes

dalt.dev Tools — Browser-based web dev utilities for image processing, icon generation, and WebP conversions

Custom Dobsonian Telescope — Fully custom 8" reflector telescope designed from scratch and 3D printed

EDUCATION

Bachelor of Science in Computer Science

2018
